## University Health Services

University Health Services (UHS) is located on campus to provide students with primary physical and mental health care, health education, health promotion, and disease prevention services. All enrolled students are eligible for care at UHS, and most services are prepaid as part of tuition and fees. Staff includes counselors, health educators, nurses, physicians, psychologists, and other caring professionals. Services provided include visits to the UHS staff and most diagnostic laboratory studies and x-rays. Services NOT provided by University Health Services include hospitalization expenses, medical care for family members, emergency room services, eye refractions, and dental care, among others.

The university does not require a physical examination prior to arrival. However, students are advised to bring medical records of any chronic or recurring medical condition and a record of previous immunizations.

» To learn more about available services, visit [uhs.wisc.edu](https://uhs.wisc.edu).

## Health Insurance

If you have a TA or PA appointment, your health insurance options are explained in your appointment letter. For students without this appointment, the Student Health Insurance Plan (SHIP) supplements the services of University Health Services with major medical coverage at a group rate for students, spouses/domestic partners, and children.

All international students and their dependents are required to purchase the Student Health Insurance Plan (SHIP), or a UW Health Services-approved comparable health insurance plan. For enrollment forms, rate information, or waiver guidelines/applications, contact SHIP.

## Child Care Referrals and Information

The Office of Campus Child Care (OCCC) offers assistance to parents and promotes the development and implementation of coordinated child care systems on campus. The office is a referral service for child care centers on campus and in the surrounding communities. The OCCC also distributes information on programs for low-income student families who may need financial assistance to secure quality child care. There are seven university-affiliated child care centers. Each is nationally accredited by the National Association for Education of the Young Child, state licensed, and accredited by the City of Madison.

### Office of Child Care and Family Resources

611 Eagle Heights, Room 148  
Madison, WI 53705

## Child Care Tuition Assistance Program

Students with children may qualify for assistance with up to 30-40% of child care costs per academic semester. Payments are made directly to the day-care programs. All students—including international students—are potentially eligible. Applications are available from the Office of Child Care and Family Resources.
