

Wisconsin Full-Time MBA

# » TRANSPORTATION

WISCONSIN  
SCHOOL OF BUSINESS

UNIVERSITY OF WISCONSIN-MADISON

TOGETHER FORWARD®

## The City of Madison offers a wide variety of options for your transportation needs.

### **Bicycles, Scooters, and Mopeds**

Many students ride their bikes to campus. Madison is one of the most bike-friendly cities in the country, with numerous bike paths as well as bike lanes on many main thoroughfares. Parking is also available for scooters and mopeds at the Wisconsin School of Business.

### **Bus Service**

A bus pass is included in your student fees, and taking the bus is one of the most popular and convenient modes of transportation around campus. Once you have been issued a valid student ID, you can pick up your bus pass at Union South or the Student Activity Center at 333 East Campus Mall. Passes are valid on all Madison Metro bus routes. The campus bus lines travel throughout the campus, are free, and do not require identification to ride. Metro bus maps and schedules are available on most buses. Bus stops are identified by blue signs that list the routes served at that stop. A link to the route and schedule is available online [cityofmadison.com/metro/schedules](http://cityofmadison.com/metro/schedules).

### **Parking**

Parking passes for students are limited to campus lot 60, located on the far west side of campus. Priority is given to students who commute from outside of Madison. Limited parking is available in campus lot seven under Grainger Hall and campus lot 83 under the Fluno Center. The nearest city parking lot is located near the corner of University Avenue and Lake Street.
